

## Trusts and Statutory

The Trusts and Statutory Fundraising Special Interest Group provides a forum for fundraisers who raise funds from trust and statutory sources.

The group meets several times a year, often with guest speakers from trust and statutory sources, providing an excellent opportunity to meet with other trust and statutory fundraisers and to hear the perspective of those who work in and run trusts and offer statutory grants.

It also provides an **e-group** in which members can raise questions and discussion topics regarding trust, statutory and lottery fundraising, as well as a bi-monthly newsletter that summarises the important topics that have been raised through the e-mail group and speakers' presentations.
