INTRODUCTION
Welcome to the second edition of IoF’s Year in Fundraising – a resource for our members on some key data, trends and insight that we’ve seen over 2019. To all organisations that we have referenced in the yearbook – thank you!

While politics here and abroad at times felt all-consuming, it has also been an important year in the fundraising community, with engaged activity on everything from supporter experience to levels of individual giving, from equality, diversity and inclusion to real efforts to collaborate and innovate better.

So while many of you have been focussed on delivering against this year’s fundraising targets, I’ve been especially pleased to see fundraisers also thinking about some of the bigger issues that we are all facing – improving supporter experience, tackling sexual harassment, reducing our climate impact and making the fundraising community as inclusive as possible.

Excellent fundraising has to be about much more than bringing in the money. It is about how we act and behave, it’s about the values we embed in our work, and it’s about the changes to society our organisations deliver.

And despite the amazing optimism many of you show in predicting future income growth, this year’s data shows that simply raising the money is hard. Fewer people seem to be giving to charity, but those that are giving are being even more generous. At the same time, charities are doing more to take care of those who are already supporting them, developing deeper relationships and reporting better on the impact their donations achieve. And we know that investment in fundraising still pays dividends, whether that is engaging new supporters or providing an even better experience for your existing supporters.

The challenging environment means, for our part, that we’ve been trying to drive change in areas where we believe we can make a real difference. The lack of diversity in the profession is a systemic weakness that is acting as a severe brake on our ability to raise funds. We are currently missing out on a huge range of talent that can help us think and fundraise better. Our Equality, Diversity and Inclusion Strategy sets out how fundraising organisations can recruit, retain and develop a much greater diversity of people. And it sets out our role in supporting you, including continuing our journey to become a chartered body, bringing fundraisers the public recognition they deserve, and attracting more people into the profession.

We have also committed to play our part in tackling the climate emergency. We want you all to do the same.

But we cannot make the changes we believe are essential without the engagement, enthusiasm and commitment of our members and the sector as a whole. Together we can make those changes.

The decisions fundraisers and your organisations make now, and the things you choose to prioritise, will affect fundraising and the wider sector for years to come. Fundraisers have specific opportunities to make change; whether it’s in the choices we make as to how we fundraise and what we invest in, how we recruit, who we train or promote, the culture we create, the donations we accept or refuse, or simply through the engagement we have with millions of people who support and donate to our causes.

We can all be part of the change that’s needed to deliver even better fundraising, creating an even better world.

Peter Lewis
Chief Executive
Institute of Fundraising
BIG PICTURE

1 NCVO, UK Civil Society Almanac: https://data.ncvo.org.uk/
The public continued to be the largest income source

£22.9 billion making up 45% of voluntary organisations’ total income

50% of fundraisers reported an increase in income

Top 3 current fundraising priorities:

1. Improving the experience and growing relationships with existing supporters
2. Reaching out to find new supporters
3. Innovation, new approaches and trying new things

31% exceeded their fundraising targets
25% met their targets

These charities put growth down to:
1. Innovation
2. Effective resourcing
3. Investment

60% said investment in fundraising is a key strategic priority within their organisation

Most important areas for fundraising investment are:

91% Finding new supporters
90% Improving the experience of current supporters

73% said that investment in generating voluntary income was a priority at their organisation

57% said their organisations were ‘very willing’ or ‘somewhat willing’ to invest in fundraising

3/4 said that investment in fundraising activities/programmes had increased in the last three years
EQUALITY, DIVERSITY AND INCLUSION

The fundraising community is **26% men** and **74% women**\(^1\)

**Nearly 1 in 2 men (45%) think that fundraising “is not for people like me”**\(^2\)

**Charity CEOs are 34% men**  
**63% women**\(^1\)

**9%** fundraisers are BAME

**3%** fundraisers have a disability

**4%** fundraisers identify as LGBT+\(^3\)

**50%** think their fundraising organisation is taking appropriate action to address diversity, equality and inclusion

**VS**

**21%** who think that the sector as a whole is taking appropriate action\(^1\)

**3%** of charity CEOs are BAME\(^4\)

**5.3%** of people in charity senior leadership teams were from an ethnic minority background\(^5\)

**1 in 5** charities offer unpaid internships

**30%** of charities do not have an EDI policy

**63%** of charities are not taking active steps to recruit a more diverse workforce\(^3\)

**Average mean gender pay gap: 10.8%**

**Average median gender pay gap: 9.3%**

**3**

**Excellent fundraising for a better world**
AROUND THE UK

1 NICVA, State of the Sector: https://www.nicva.org/stateofthesector
2 NCVO, UK Civil Society Almanac: https://data.ncvo.org.uk/
5 Remember a Charity, UK Legacy Fundraising Market 2019: https://www.rememberacharity.org.uk/latest-news/legacy-research-reinforces-importance-of-normalising-legacy-giving/
**NORTHERN IRELAND**

7,021 voluntary, community and social enterprise organisations

£1.1 billion total annual income

12.8% of income came from the public in 2017/18 – £160 million

76% of people in Northern Ireland had donated in the last 12 months

Average amount donated per person in the last 12 months was £141

Almost three quarters (73%) used cash as their main method of donating to charity

£330 charitable income per head of population

**SCOTLAND**

24,416 charities registered in Scotland

£5.8 billion total annual income (2.5% growth on previous year)

A fifth of the sector’s income comes from the general public

Real terms legacy income growth from 2007-2017 of 23% (Charity Financials’ top 5,000 charities)

£747 charitable income per head of population

3.4% of Scottish workers are employed in the third sector

**WALES**

8,157 charities registered in Wales

£1.26 billion total annual income

40% income from voluntary sources in 2016/17 (35% in the previous year)

£155.6 million from voluntary public giving (£130.5 million in the previous year)

Real terms legacy income growth from 2007-2017 of 35% (Charity Financials’ top 5,000 charities)

£403 charitable income per head of population

8% of people in Wales are employed in the charity sector
INDIVIDUAL GIVING

1. NCVO, UK Civil Society Almanac: https://data.ncvo.org.uk/
Total donations from people (excl legacies) was £8.3 billion in 2016/17 (from £8.4 billion in the previous year)¹

Donations from the public make up 16% of the sector’s total income¹

Proportion of total donation amount received by top 3 cause areas in 2018:²

- 19% Religious organisations
- 11% Overseas aid and disaster relief
- 10% Medical research

While fewer people reported giving, those that did were giving more:²

- £20 was the median monthly amount given by a donor in 2018 (up from £18 in 2016)
- £45 was the mean amount given (up from £40 in 2016)

57% donated money to charity in 2018 (2% fewer than the previous year)²

- 34% of the general public gave money to a charity collection in the last 12 months³
- 28% of the general public sponsored someone in the last 12 months³

The most common way people said they were asked to donate was:²

- 35% on the street (down from 37% in 2017)
- 26% by television
- 23% via direct mail (down from 28% in 2016)
PUBLIC OPINION

1 nfpSynergy, Fundraising Around the World: https://nfpsynergy.net/free-report/charity-fundraising-around-the-world
2 IoF, Public Perceptions: https://www.institute-of-fundraising.org.uk/guidance/research/public-perceptions/
3 YouGov, What motivates charitable giving?: https://yougov.co.uk/topics/resources/articles-reports/2019/06/04/what-motivates-charitable-giving
61% said donating makes them feel good
47% said they wished they could give to all the charities that ask.

The top 3 statements the public associated with fundraising were:

- “It is vital for organisations to do their work” — 63% agree
- “It encourages positive social change” — 62% agree
- “It is rewarding” — 57% agree

78% of the public think raising funds for charity is an important thing.
57% of the general public would be proud to work in the charity sector.
77% of those who have fundraised or volunteered in the last 12 months would be proud to work in the charity sector.
36% of the general public said they know ‘a little’ or ‘a lot’ about what’s involved in a fundraising career.

Top reasons for giving to charity are:

- “I believe in the cause”
- “I believe you should give to charity”
CORPORATE GIVING

3 peak b, Small Business Community Value: https://peakb.uk/sbci
4 C&E, Corporate-NGO Partnerships Barometer 2019: https://www.candeadvisor.com/barometer
Corporates gave £500 million to charities in 2017/18. 

83% of charities said they expected their organisation to increase or significantly increase their investment in cross-sector partnerships.

81% of charities agreed that harnessing corporate partners skills and assets would help them make more of an impact in delivering their mission than a relationship based on just financial value.

91% said they had embarked on corporate partnerships to enhance their reputation and credibility.

48% of charities said they had increased their investment in corporate fundraising over the last 3 years.

Giving by top 50 corporate foundations increased by 23% to £259 million.

Corporate foundations contribute 9% of total foundation giving.

42% of small businesses said they have increased their support for charities and just 7% said they have decreased their support.

66% of charities believed that partnerships were changing their partners business practices and 64% of businesses agreed.
MAJOR DONOR FUNDRAISING AND PAYROLL GIVING

1 Institute of Fundraising & PwC, Fundraising for Impact: https://www.institute-of-fundraising.org.uk/guidance/research/fundraising-for-impact/
2 HMRC, UK Payroll Giving Scheme: https://www.gov.uk/government/statistics/payroll-giving-schemes
3 The Sunday Times, Giving Lists 2019: https://www.thetimes.co.uk/article/the-sunday-times-giving-list-2019-who-are-the-uk-s-most-generous-millionaires-sunday-times-rich-list-txtwsbh27
5 IoF, Public Perceptions: https://www.institute-of-fundraising.org.uk/guidance/research/public-perceptions/
**MAJOR DONOR FUNDRAISING**

35% said they had increased their level of investment in major donor fundraising over the last three years.

68% said they expect their major donor income to increase over the next three years.

A record **£3.75 billion** was donated to charity by the UK’s richest individuals in the last 12 months, **↑ 0.5% increase on the previous year**.

The number of individuals donating more than 1% of their wealth fell from 86 to 72.

42% of HNWIs consider that the amount they are able to give would be insufficient to make a real impact.

---

**PAYROLL GIVING**

1,034,000 donors in 2017-18.

**£137 million** donated by payroll giving in 2017/18, **↑ 6 million more than the previous year**.

Amounting to **£40 million** income tax relief.

3,458 employers were awarded a Payroll Giving Quality Mark in 2019, **65% more than the previous year**, indicating that more firms offering a scheme.

2% of the general public said they had donated by payroll giving in last 12 months.
TRUSTS AND FOUNDATIONS

Total annual grant-making by all charitable foundations is estimated at £6.5 billion.

£2.6 billion in grant-making was awarded by the top 300 foundations in 2017-18 (excl. Wellcome Trust) up from £2.3 billion in the previous year.

Top 300 foundations spent 9.2% on direct charitable spending (their own programmes) in 17-18 higher than last year’s 8.7%.

49% of foundations increased grants even though their income or assets were down this year.

£105 million goes to environmental causes and this is expected to rise.

64% of top foundations saw a real increase in grant-making.

Foundations provided 14.3% of private giving to charities in 2017-18.

55% of charities said their investment in trusts and foundations fundraising has increased over the last three years.

64% of charities expect to increase their income from trusts and foundations over the next three years.
LOTTERIES AND EVENTS FUNDRAISING

2 massive, The massive Top25: https://www.wearemassive.co.uk/insight/mass-participation-top-25-2/
5 massive, sports fundraising market snapshot 2019: https://www.wearemassive.co.uk/insight/sports-fundraising-market-snapshot/
LOTTERIES

£1.5 billion in National Lottery contributions to good causes from Oct 2017 – Sep 2018, a ↑ 0.3% increase on previous year¹
